UPS/USPS-T41-25. In reference to Exhibit USPS-41B, and your derivation of incremental costs for Parcel Post, please describe how your analysis treats OBMC, DBMC, and DSCF mail as distinct from other Parcels Zone Rate mail. Your description should include an explanation of how, and to what extent, costs associated with returning trucks or empty equipment to the origination point for these subclasses are taken into account in your analysis and workpapers.
